
8.1 Project Review-I (Semester-II)

Modeling (Model Refinement and Algorithm development) : Student is expected to deliver presentation covering Modeling

Sr. No.	Questions	Date	Sign of Guide
1.	Which software Development Process model is used? (Water fall, Incremental, RAD) How? (at this level?)		
2.	Do you clearly identify data objects, their attributes and relationships? (All constraints from SRS are captured or not?)		
3.	Have you clearly matched the objects with respective classes and their responsibilities?		
4.	Have you analyzed the requirements and represented them into respective models?		
5.	Can you differentiate between different system states and depict them in the form of state transition diagram?		
6.	Does the mathematical model clearly imply design of the project?		
7.	Does the mathematical model clearly states goal of project?		
8.	Does the interface between the modules properly identified?		
9.	Does any functional dependencies are identified and described?		
10.	Which architectural model does your system supports?		
11.	Whether Deployment diagram is in line with selected architecture?		
12.	Whether all components are designed properly and represented in component diagram?		
13.	Whether NP-completeness of algorithms is checked or not?

8.2 Project Review-II (Semester-II)

Coding / Implementation: Student is expected to deliver presentation covering Coding / Implementation.

Sr. No.	Questions	Date	Sign of Guide
1.	Does the code completely and correctly implement the design?		
2.	Does the code comply with the coding standard?		
3.	Is the code well structured, consistent in style, and consistently formatted?		
4.	Are all functions in the design coded?		
5.	Does the code make use of object oriented concepts?		
6.	Does the code support granularity?		
7.	Does the language used for coding is correctly chosen as per the project need?		
8.	If any off the shelf components are used, Have you understood the functionalities of using it?		
9.	Are all comments consistent with the code?		
10.	Whether code optimization is done properly or not?(By using language features)

8.3 Project Review-III (Semester-II)

Validation and Testing: Student is expected to deliver presentation covering Validation and Testing

Sr. No.	Questions	Date	Sign of Guide
1.	Have you done alpha testing?		
2.	Have you done beta testing?		
3.	Have you validated the requirements, design and code as per standard ?		
4.	Have you performed GUI testing of project? How?		
5.	Does your system comply with basic usability norms?		
6.	Have you tested the code using standard datasets available in your area of project?		
7.	Have you tested the code in real time environment?		
8.	After integration of all components whether total performance of system is checked or not?		
9.	Whether repository of all components along with versions is documented or not?

8.4 Project Review-IV (Semester-II)

Report Writing: Student is expected to deliver presentation covering Report Writing

Sr. No.	Questions	Date	Sign of Guide
1.	Is the report written as per the prescribed format?		
2.	Is the report timely prepared?		
3.	Is the report properly organized, spelled, grammatically correct?		
4.	Is the report plagiarism free?		
5.	Is the report precise and written to the point?		
6.	Is the report contains complete results and comparative graphs?		
7.	Are all figures and tables properly numbered and labeled?		
8.	Are all figures and tables properly cited?		
9.	Whether references are properly cited?
